

# Part 1

**Floor sculptures - classroom based  
Pictures of set up and materials used for  
each group.**

**(Teachers to use as a guide for own set  
up in classroom or alternative area at  
school with large floor area)**

**Part 1 Floor sculpture using recycled materials based upon Botanic Society paintings and simple line drawings completed in class**

Floor sculpture examples and Botanic Society painting alongside

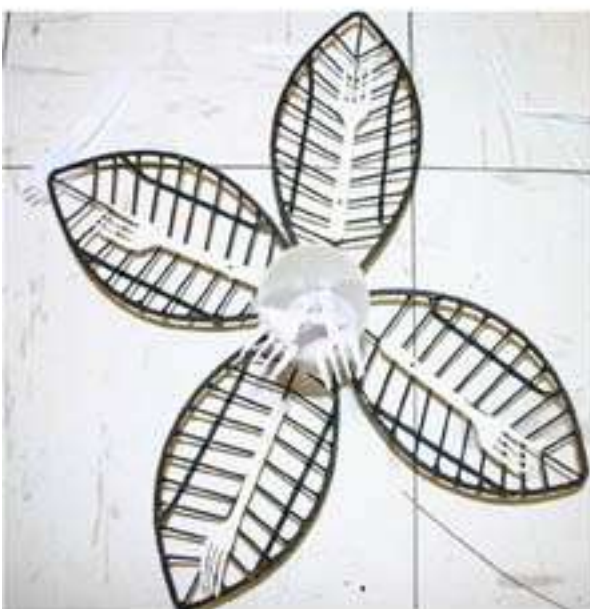

**Part 1 Floor sculpture using recycled materials based upon Botanic Society paintings and simple line drawings completed in class**

Examples of possible groups of materials and outcomes

**Group A**

Plastic knives, forks ,cups and metal soap containers in the shape of leaves.

**Part 1 Floor sculpture using recycled materials based upon Botanic Society paintings and simple line drawings completed in class**

Examples of possible groups of materials and outcomes

**Group B**

Climbing rope and large green leaves.

**Part 1 Floor sculpture using recycled materials based upon Botanic Society paintings and simple line drawings completed in class.**

Examples of possible groups of materials and outcomes

**Group D**

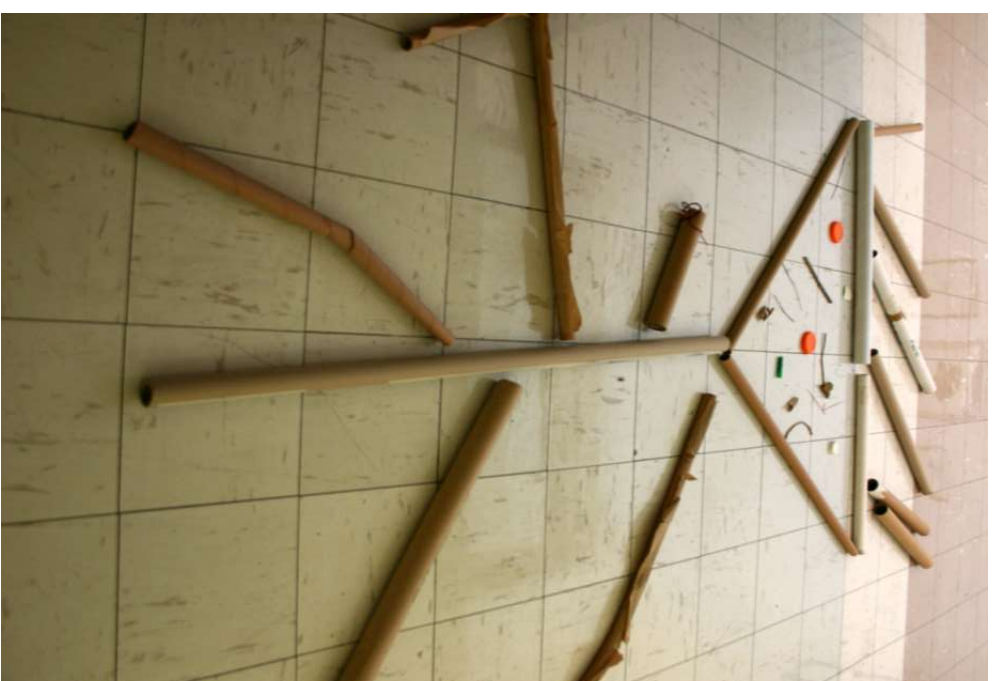

Short fat cardboard tubing, inflated road bike inner tubes, cardboard box and leaves.

**Part 1 Floor sculpture using recycled materials based upon Botanic Society paintings and simple line drawings completed in class**  
Examples of possible groups of materials and outcomes

**Group C**

Large long cardboard tubing.

**Part 1 Floor sculpture using recycled materials based upon Botanic Society paintings and simple line drawings completed in class.**

Examples of possible groups of materials and outcomes

**Group D**

Willow sticks and bamboo canes

## Part 2

### Land Art Pictures of Botanic Gardens CHCH set up and materials used

(Teachers to use as a guide for own set  
up in school grounds or wooded area)

Botanic Gardens CHCH - Circle making area.  
Leaves and twigs raked to reveal rich brown earth  
underneath . A perfect contrast to other materials.

## Part 2 Materials for circles Land Art group

Tree matter

Fir cones - different sizes

Thin bark for binding sticks together

Other useful materials: feathers, large green leaves, drift wood, found brightly coloured fruits, petals from flowers and ferns. Arrange around a large raked circle.

## Part 2 Land art materials set up circles page 2

Items store well in old ice cream tubs and large bin bags. Arrange around the raked circle

Raked circle for smaller works to be created in. ~ 5m radius (increase size if working with a larger class)

Containers for collection of materials and for smaller circle guides within tyre shapes

Road bike tyers and inflated innertubes. Act as guide for circle Land Art. Remove when work is completed.

Part 2 Examples of possible outcomes using materials collected for circles Land Art Sculpture group (Wairaki, Roydvale, St Theresas and Merrin Primary schools CHCH)

Part 2 Examples of possible outcomes using materials collected for circles Land Art Sculpture group (Wairaki, Roydvale, St Theresas and Merrin Primary schools CHCH)

## Part 2 Materials for lines Land Art group

Bamboo sticks

Flax flowers

Bark strips

Different sizes of round/oval pebbles

Thin sticks

Fir cones

Create lines on raked rectangular area, tarmac or grass for best contrast. Other useful materials: feathers, large green leaves, drift wood, found brightly coloured fruits, petals from flowers and ferns. Arrange around a large raked circle.

**Part 2 Examples of possible outcomes using materials collected for line Land Art Sculpture group (Wairaki, Roydvale, St Theresas and Merrin Primary schools CHCH)**

## Materials collected for build/construct Land Art Sculpture group

Bamboo sticks

Flax flowers

Old red bricks

Small logs

Set up distance

Large and medium sized stone pebbles

Other possible materials: flooring, wood blocks, kindling wood. Arrange next to an oblong shaped raked rectangle. Approx 10mx7m (depending on amount of materials and class size)

Part 2 Examples of possible outcomes using materials collected for build/construct Land Art Sculpture group (Wairaki, Roydvale, St Theresas and Merrin Primary schools CHCH)

**Part 2 Examples of possible outcomes using materials collected for build/construct
